CORNER RULER

With this handy tool by your side, it's never been easier to round off the corner of all types of projects

Have you ever been working on a project that requires you to round off corners and you've found yourself rooting through your cupboards for an appropriately sized plate or cup? Well, no more! This Corner Ruler gift will do the job instead. It's printed with 1in, 2in, 3in and 4in curved corners on durable, transparent plastic, making it easy to place on top of your fabric before marking. Perfect for creating soft, pretty corners on bed quilts, it's also super-useful for making cushions, table runners and even a quilted jacket. The handy ruler is also printed with 1in and

2in internal corners that make it easier than ever to add boxed out corners to a bag. Simply position the best size for the project in each corner of the base of your project and mark the square. Cut the shape out, bring the raw edges together, and you're done!

WHAT WILL YOU MAKE?

We'd love to see what you make using your Corner Ruler. Drop us a line – by email, post or on Facebook – letting us know all about your latest finished quilting project and share your top quilting tips.
